

An Editable Website For You

Please use the template chooser above to view some of the templates available for your website. We do not build flash web sites due to the fact that we like the search engines to like the sites that we create.

Affordable Web Sites That You Own!

Pocket Money Marketing provide affordable web sites, web site hosting and online marketing services for all types of businesses and individuals. If you're looking for a web site design to suit your online needs and you want to be able to update your site without having to contact your webmaster every time then we can provide the solution for you. use the Template Chooser to view a few of the designs available for your web site (we have over 300 to choose from). These templates can be customised to suit your needs.

You Can Own Your Web Site

You have the option to own or rent your website. Don't get trapped into buying a website where you own the content but not the actual site and the database. For more information [click here](#)

Editable Web Sites installed and customised by Pocket Money Marketing change all that ... Our sites are different from the normal models for website software. For a start, they not complicated. Our sites have been developed for the masses. Whether you are looking to create a shopping site, a community site, a business information site or a personal site you can have it all with the one system. Easy to administer and reliable. You don't even require the knowledge of web coding or HTML to administer your site. If you know how to use a word processor (eg. MS Word) you can operate one of these sites. Of course if you are one of our customers we will be there for you if you need assistance. We will even assist you and give you sound advice when setting up your site.

Just think, this very page you are looking at can be edited and updated simply, online and fast. No need to know HTML (web coding) or how to upload and download files to a server. No need to have expensive web editing software! You can manage your web site online simply by logging into your own online administration panel!

Your site can include any of the options below and there are many more available:

-

A slide-show to show off your photos or products.

-

A newsletter system to broadcast to your customers.

-

A shopping cart to sell your goods or services online.

-

An Image Gallery to show off your products.

-

A forum or chat room to communicate with friends.

-

A classified ad section to invite others to sell from your site.

-

A business directory to invite others to advertise from your site.

-

A guestbook for customer or friends testimonials.

-

A jobs directory to offer work to employees and others.

-

Website For Search Engines

It is important that all the pages on your site contain words that people are using to search the Internet for your products or services. If you don't have these words on your pages people will find it difficult to find your page amongst the other 8 billion sites that are all contending for front page ranking on sites like Google, Yahoo and MSN. The websites we build are created for search engine friendliness. We also know how to find out the words and phrases that people are using to look for your products or services.

How much would you pay for a web site with all of these features? If you want to know more on how we can provide you

with an affordable website please go to Pocket Money Marketing contact us for details.

Features:

- Completely database driven site engines so you can administer them online. No uploading or downloading files!
- News, products or services sections fully editable and manageable
- Topics sections can be added to by contributing authors (if required)
- Fully customisable layouts including left, center and right menu boxes
- Browser upload of images to your own library for use anywhere in the site
- Dynamic Forum/Poll/Voting booth for on-the-spot results

Spelling Checker built in to ensure you have no typing errors.

Extensive Administration:

- Change order of objects including news, FAQs, articles etc.
- Random Newsflash generator
- Remote author submission module for News, Articles, FAQs and Links
- Object hierarchy - as many sections, departments, divisions and pages as you want
- Image library - store all your PNGs, PDFs, DOCs, XLSs, GIFs and JPEGs online for easy use
- Automatic Path-Finder. Place a picture and let the site fix the link
- News feed manager. Choose from over 360 news feeds from around the world
- Archive manager. Put your old articles into cold storage rather than throw them out
- Email-a-friend and Print-format for every story and article
- In-line Text editor similar to Word Pad with Spell Checker.
- User editable look and feel
- Polls/Surveys - Now put a different one on each page

- Custom Page Modules. Download custom page modules to spice up your site
- Template Manager. We can provide you with a choice of templates.
- Layout preview. See how it looks before going live
- Banner manager. Make money out of your site by offering advertising to others or using affiliate marketing.
